

Cisco Connected Learning: A Blueprint for Schools

Administrative Efficiency

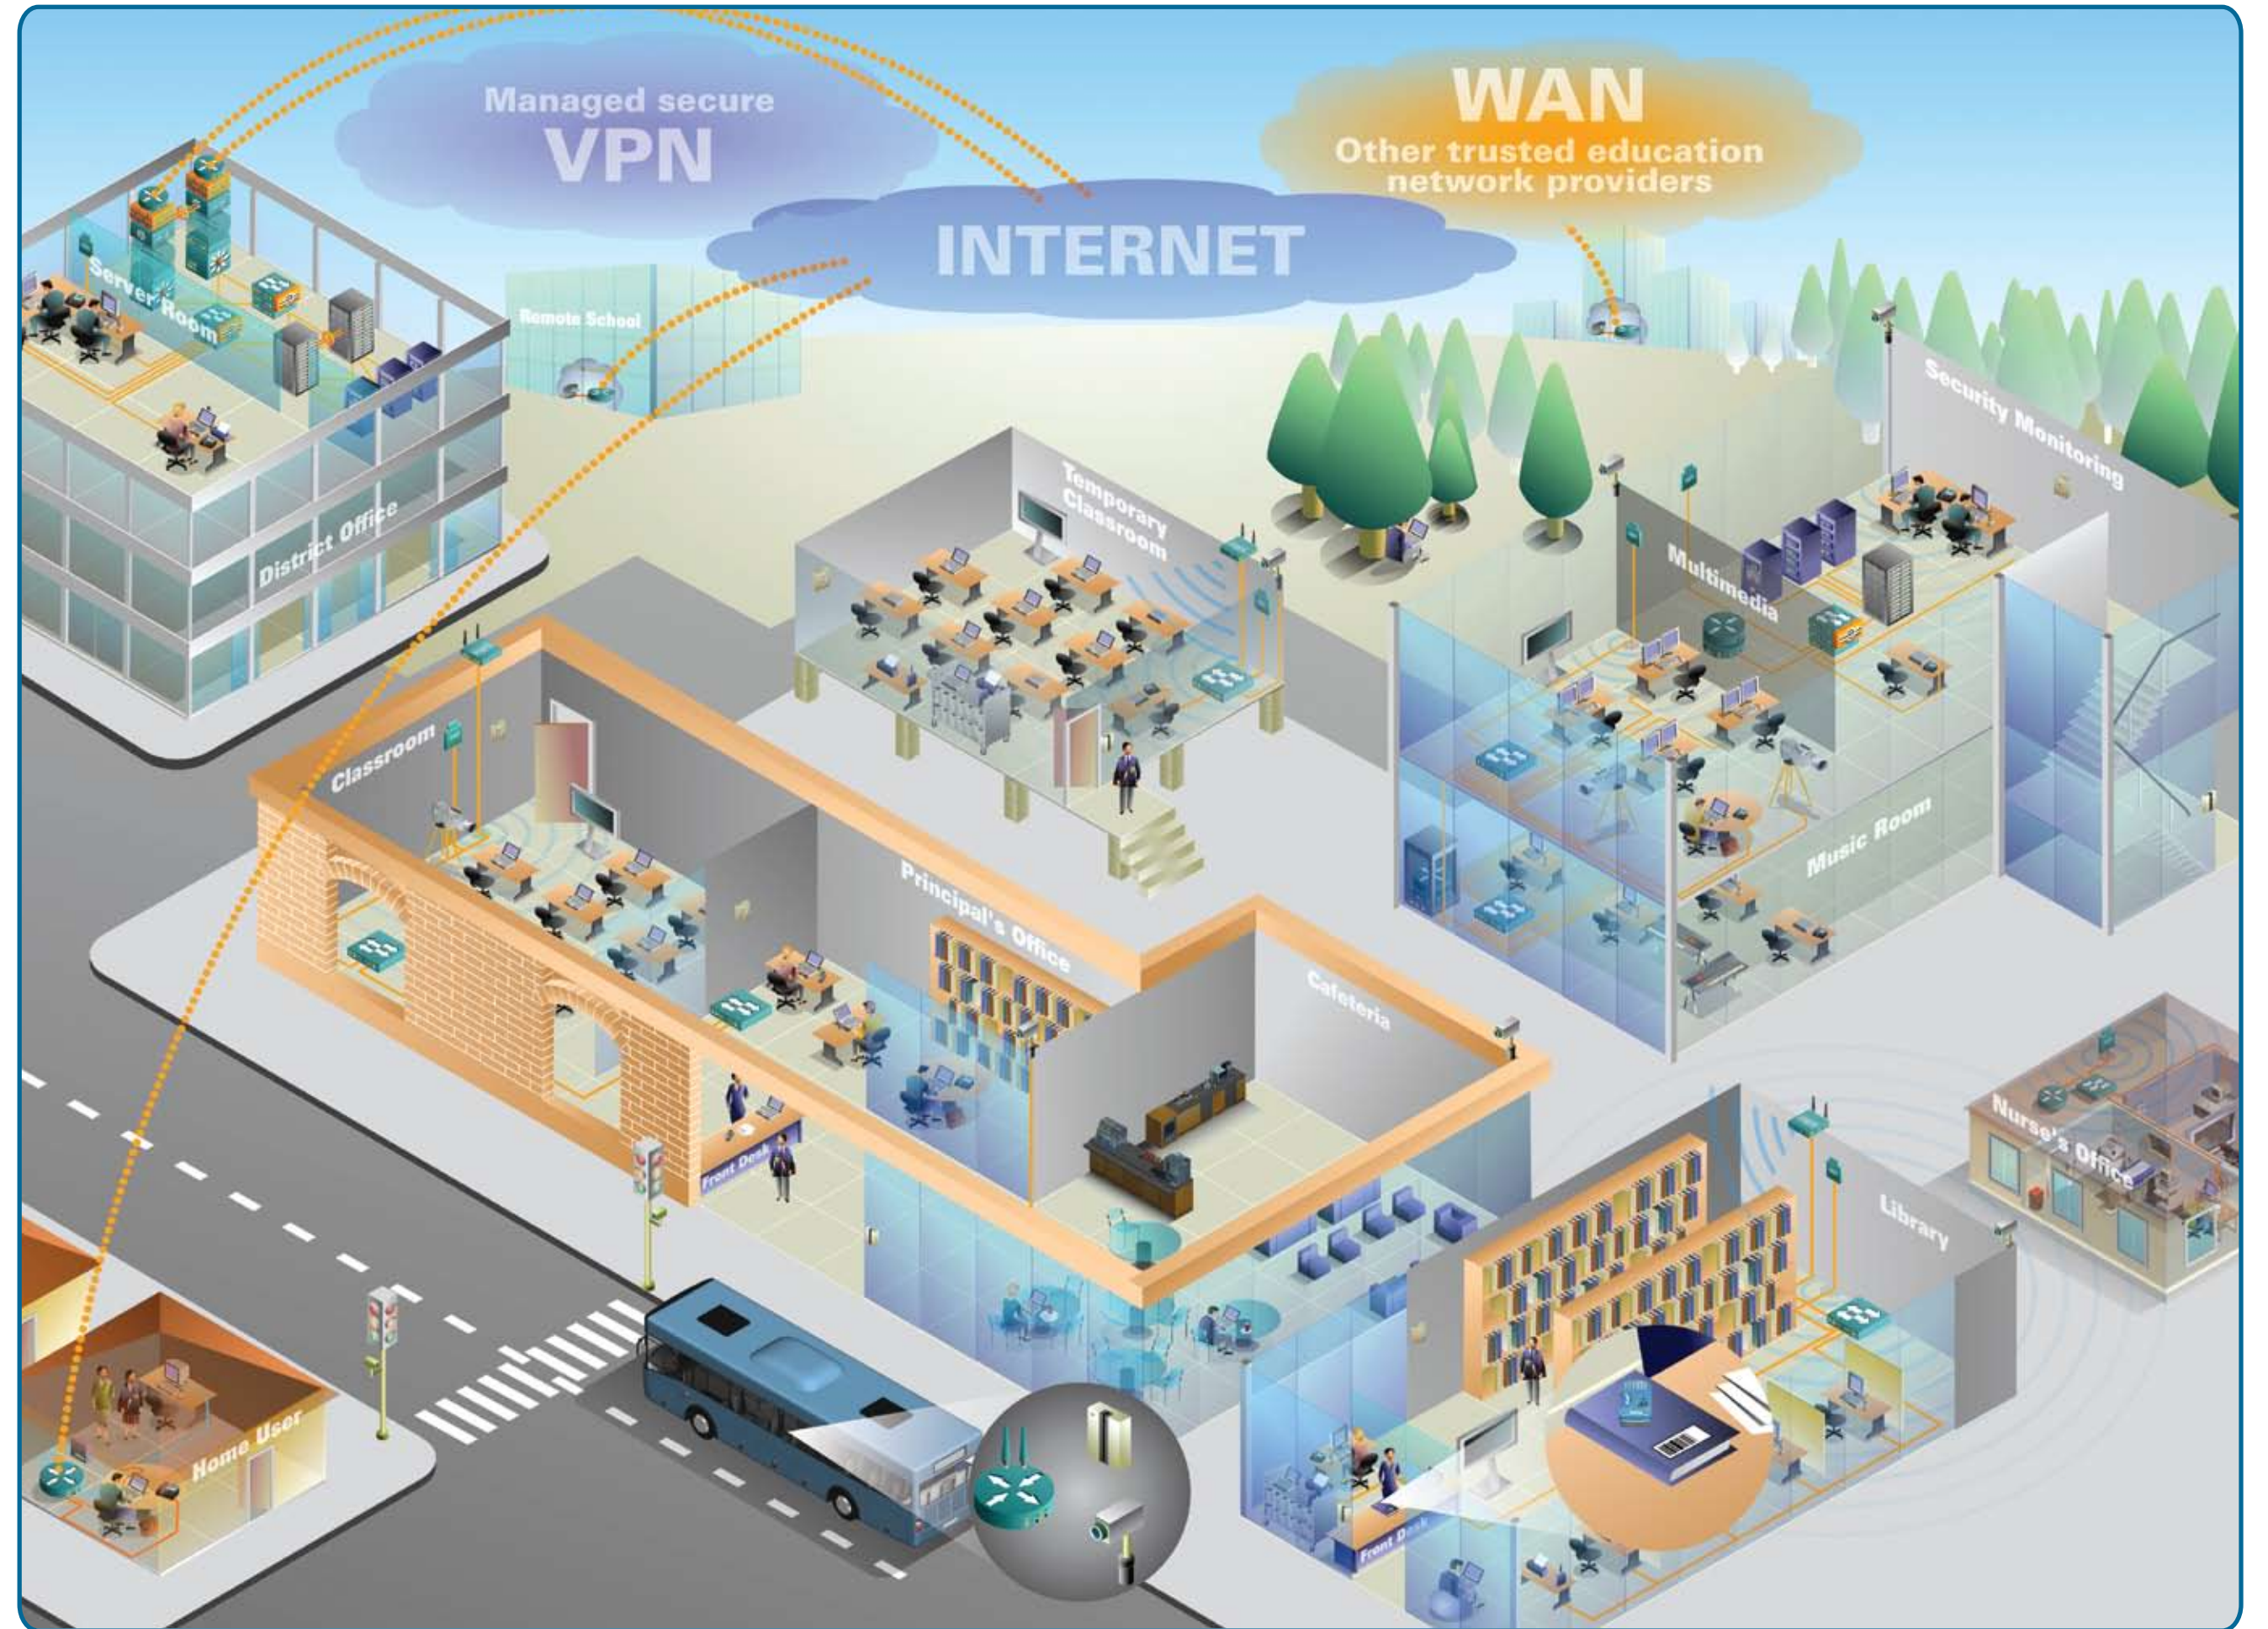

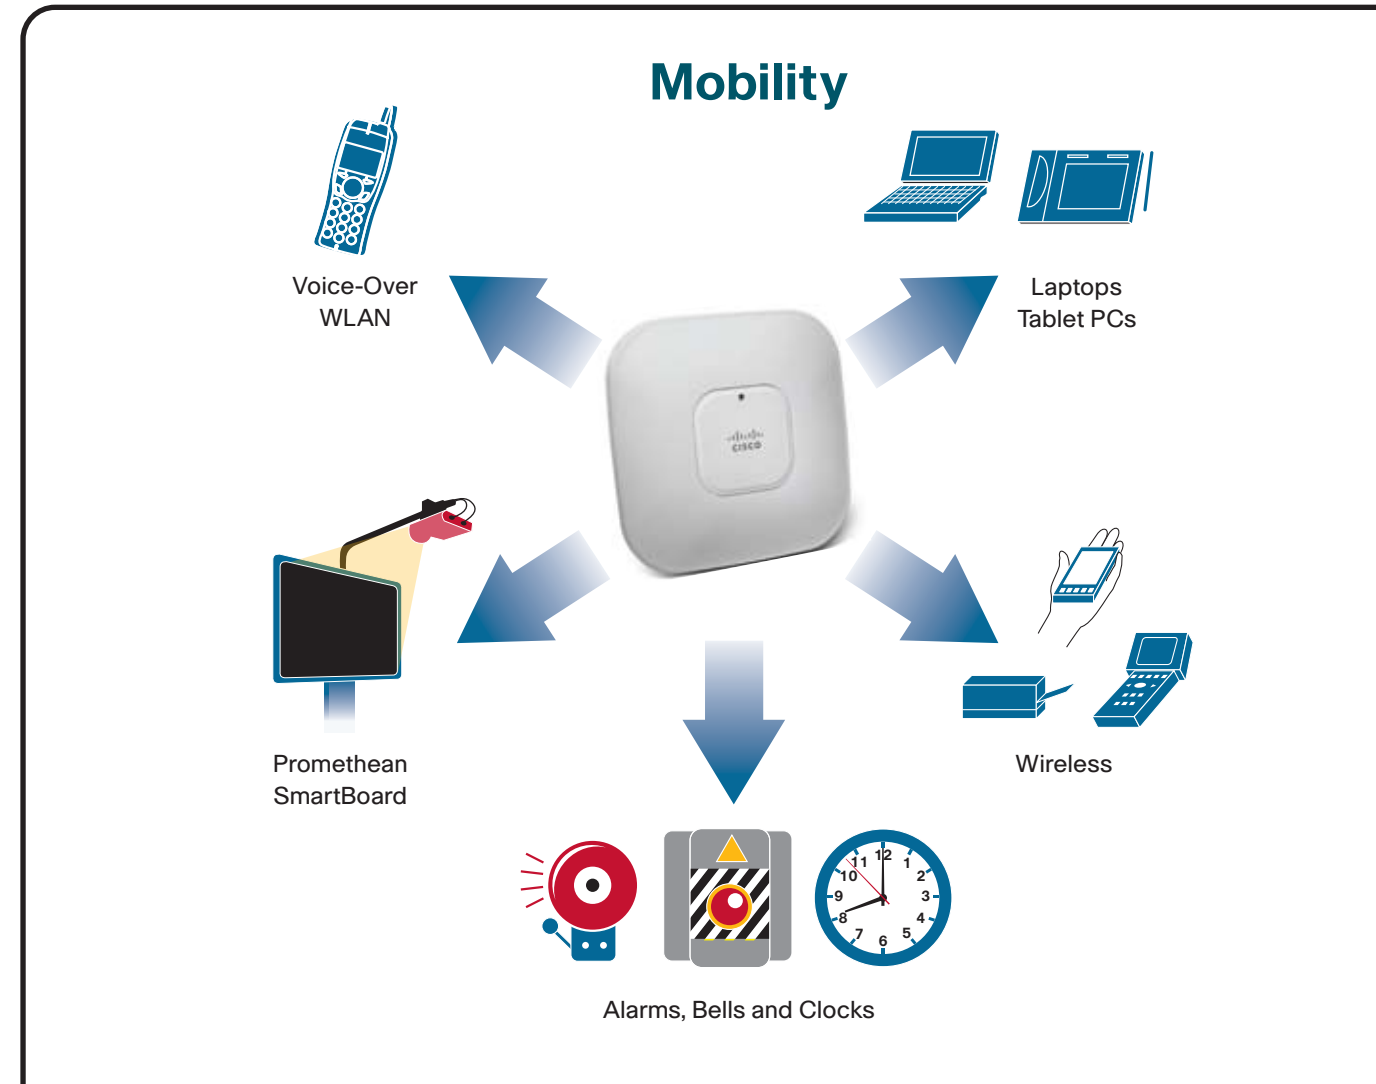

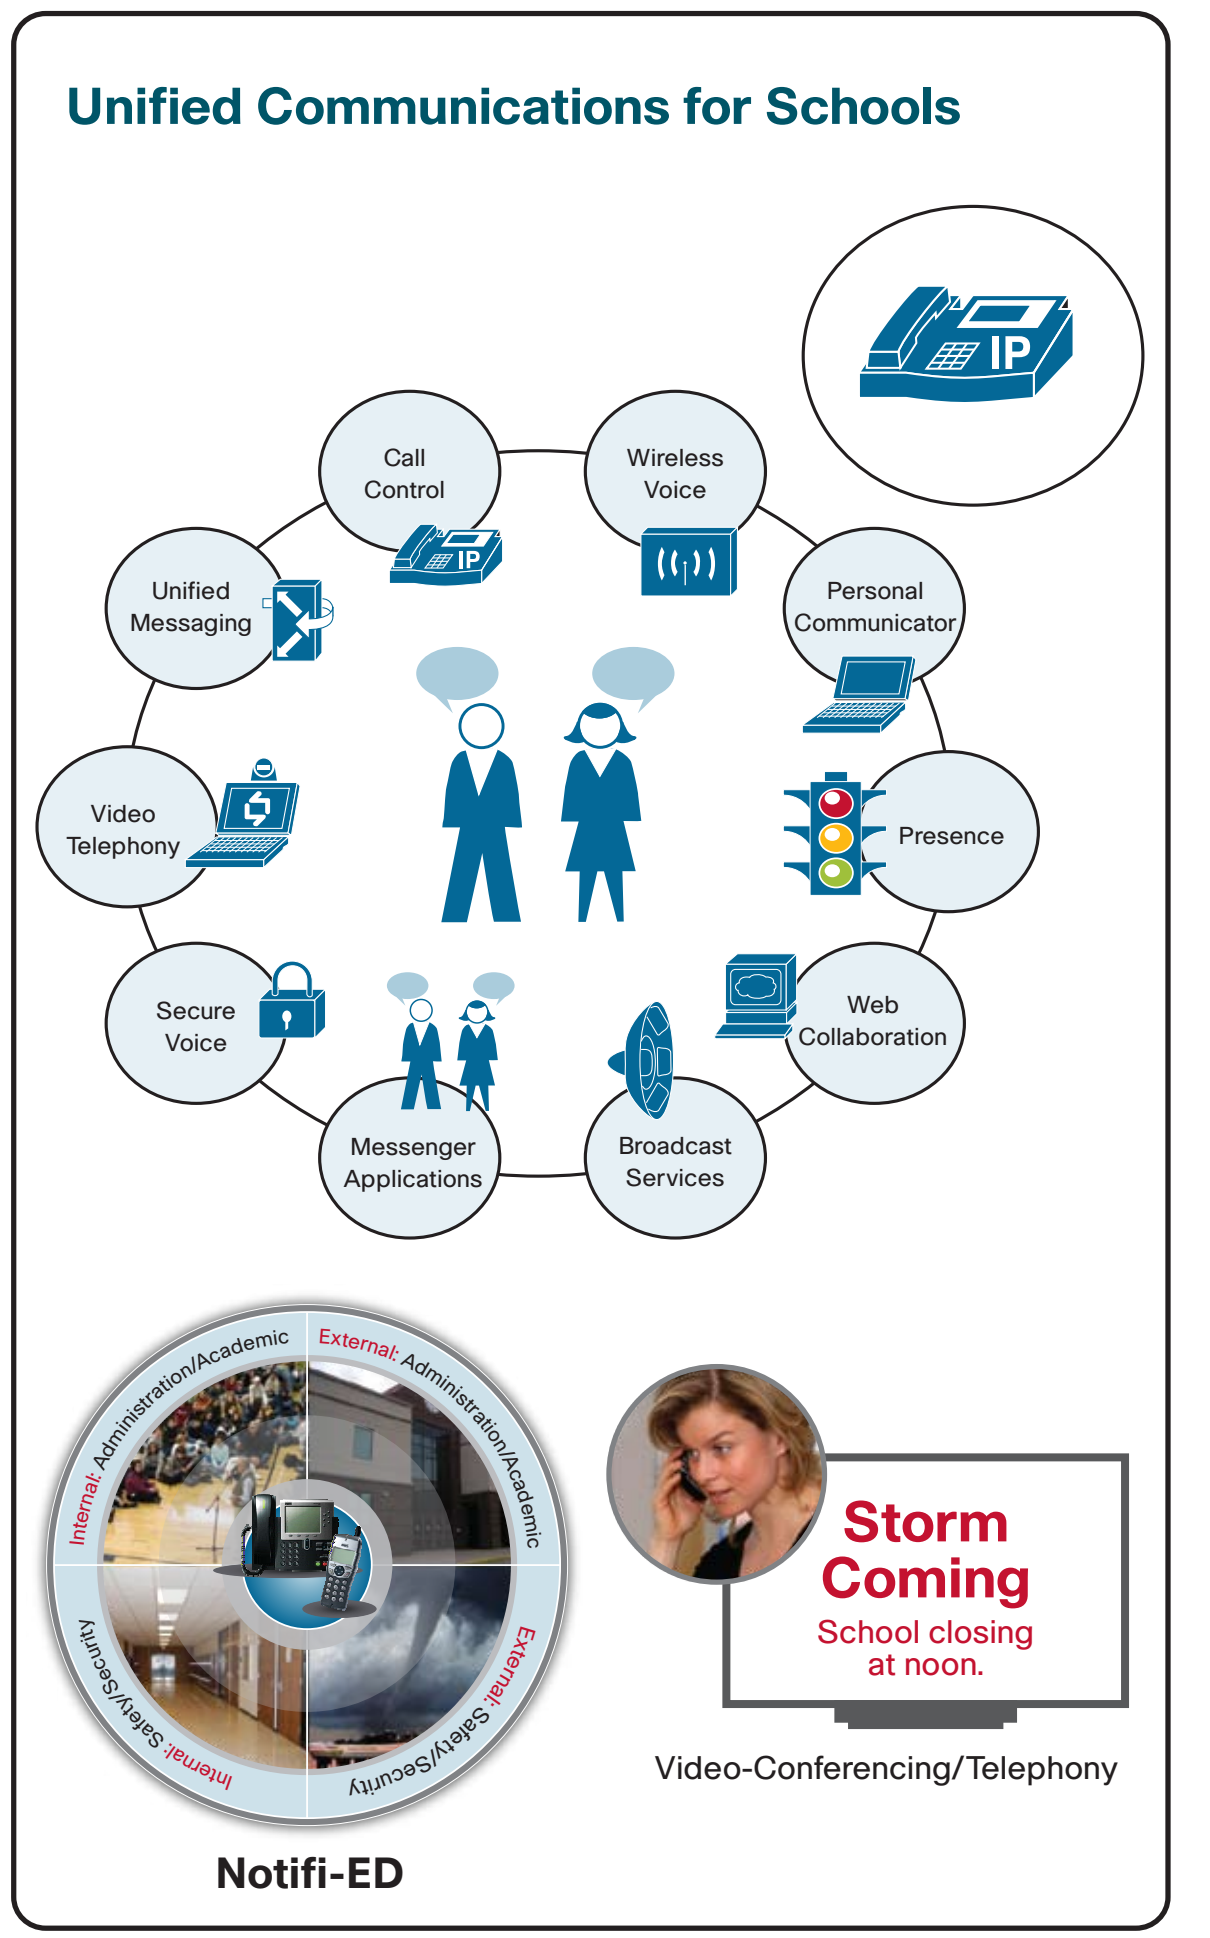

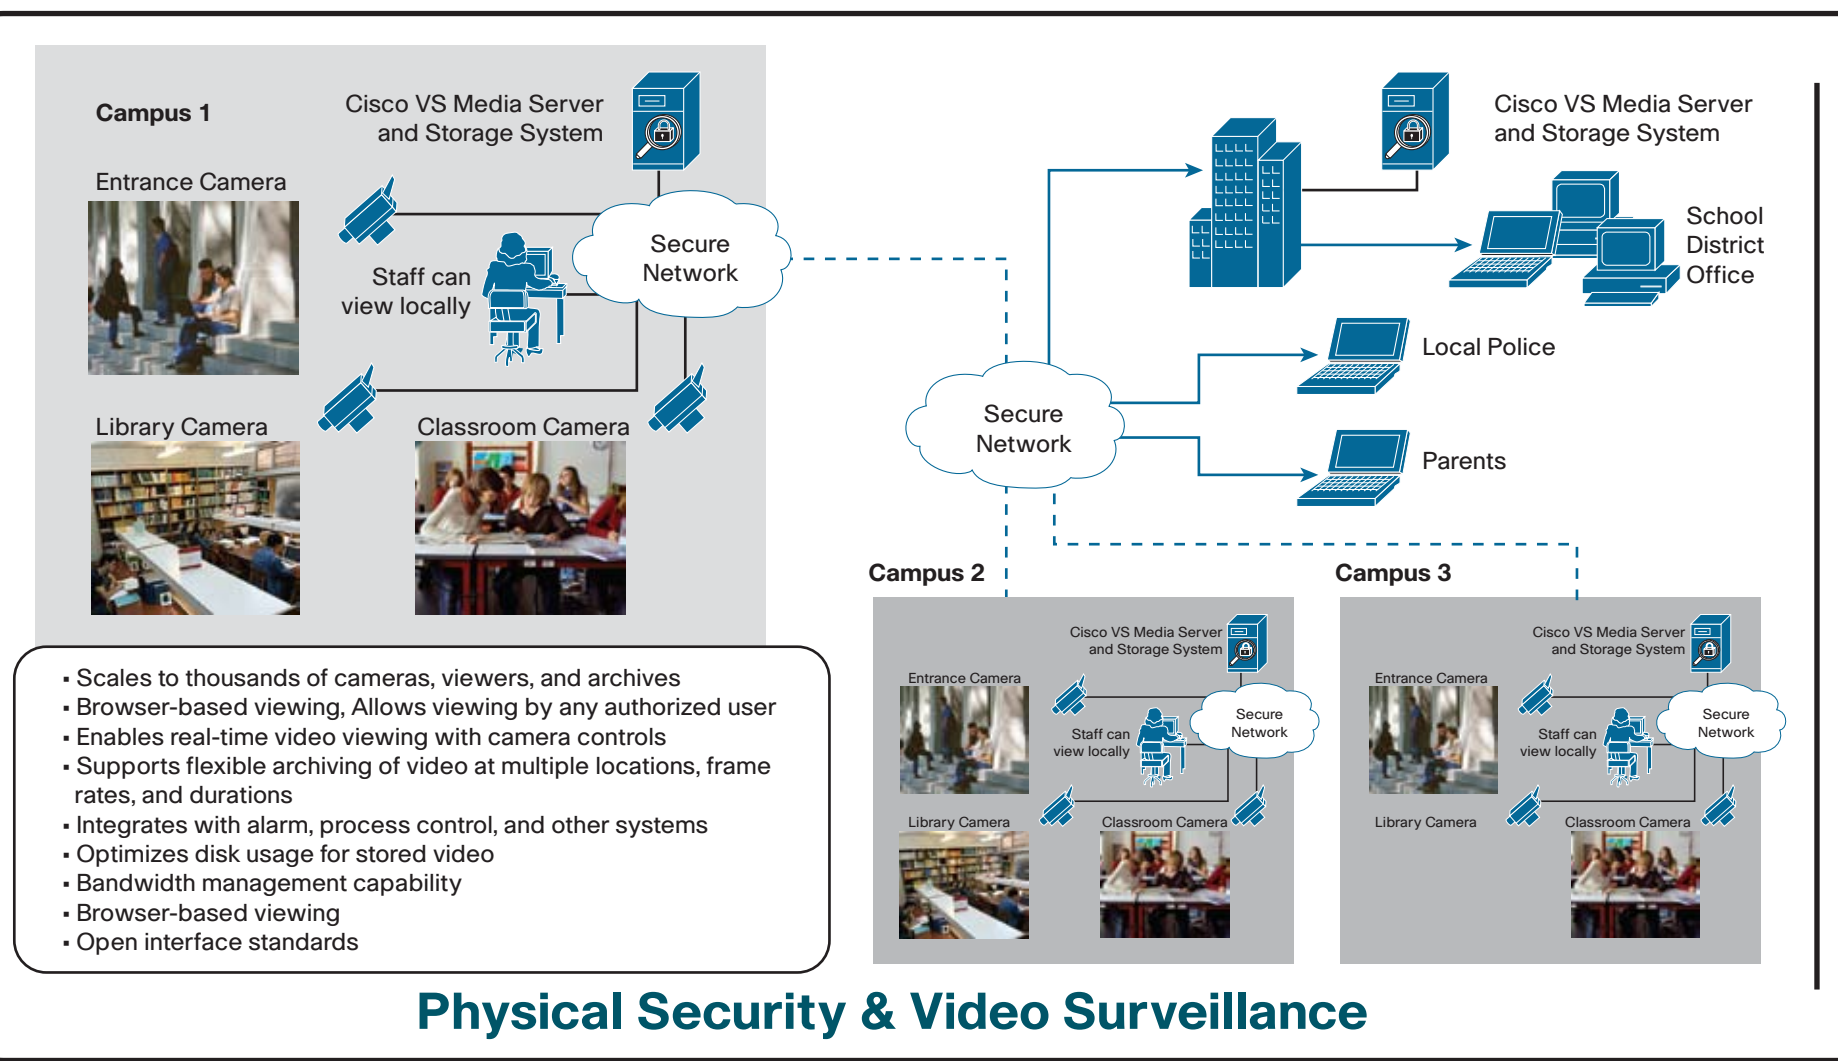

- Unified Communications
- Notifi-ED
- Mobility
- Digital Media Systems
- Connected Real Estate
- TelePresence
- Data Center

Safety and Security

- Safety & Security
- Unified Communications
- Notifi-ED
- Mobility
- Digital Media Systems
- Connected Real Estate

Next Generation Learning

- Unified Communications
- Mobility
- Virtual Classroom
- TelePresence
- Digital Media Systems

Connected Real Estate

Cisco Building Automation

Cisco EnergyWise technology

Passive RFID

Ideal for tracking small, low-value items as they enter/exit open-loop supply chains

Computer Carts

Active RFID

Ideal for real-time tracking of high-value items through closed-loop systems

Library Assets

TelePresence

- District Meetings
- Staff Development
- Curriculum Planning
- Remote Instruction

School Applications, Data Center, & Storage Networking

- Broadcast Applications:**
 - Emergency Alerts
 - Amber Alerts
 - School Bell
 - Audio and Text Messaging
 - Announcements
 - 1 to 1 Broadcasts
 - 1 to Many Broadcasts
 - Zoned Broadcasts
- Messenger Applications:**
 - Outbound Notifications
 - Parent Alerts
 - Delays/School Closings
 - Schedule Changes
 - Food Services
- XML Applications:**
 - Attendance
 - Security Camera Monitoring
 - Room Scheduling
 - Calendar of Events

- Application Acceleration
- Business Continuity & Disaster Recovery
- High Performance/Grid Computing
- Server Virtualization
- Storage Networking
